

Bayer Crop Science and FMC Join Forces to Combat Cotton Bollworm

This 2019 rebate combines the best in class Cotton trait technology of Bollgard II® XtendFlex® and Bollgard® 3 XtendFlex® with Prevathon® insect control powered by Rynaxypyr® active; a cutting edge product from FMC, for controlling damaging insects. **The multiple modes of action produced by combining these technologies is designed to protect yields.** Bayer Crop Science's commitment to assisting Farmers impacted by CBW pressure is and **continues to remain STRONG.**

Program Details

1. What is the rebate?

Save **\$2/acre** off each 20 oz application of Prevathon® insect control applied to Bollgard II® Xtendflex® Cotton or Bollgard® 3 XtendFlex® Cotton. Maximum annual application rate of 60 oz/acre per label.

2. Who is eligible for the rebate?

Cotton Farmers who are planting eligible Bollgard II® XtendFlex® or Bollgard® 3 XtendFlex® Cotton and spraying with Prevathon® insect control.

3. Can I use this rebate on other Cotton Seed Traits?

No. The rebate will only cover Prevathon® insect control applications on fields planted with eligible Bollgard II® XtendFlex® or Bollgard® 3 XtendFlex® Cotton.

4. What do I need to do to receive my rebate?

Farmers are enrolled automatically with qualifying purchases of Bollgard II® XtendFlex® or Bollgard® 3 XtendFlex® Cotton and Prevathon® insect control.

5. When will I receive my rebate?

Checks will be mailed directly to the farmer from Bayer beginning in **December**.*

6. What is the recommended spray rate?

20 fluid oz./acre of Prevathon® insect control

7. What if I need to spray multiple times?

Multiple sprays are applicable. In accordance with the label, the maximum amount of Prevathon® insect control per acre/year is 60 fluid oz.

8. What does the dealer need to do?

Report units of eligible purchases of Bollgard II® XtendFlex® or Bollgard® 3 XtendFlex® Cotton along with applicable Prevathon® insect control volume per farmer to AgData/Data Dimensions by **10/15/2019**.

9. Eligible purchase dates for both

Bollgard II® XtendFlex® or Bollgard® 3 XtendFlex® Cotton and Prevathon® insect control are **10/1/2018 through 9/30/2019**.

*Redemptions of less than \$5 in total will not be paid.

Individual results may vary, and performance may vary from location to location and from year to year. This result may not be an indicator of results you may obtain as local growing, soil and weather conditions may vary. Growers should evaluate data from multiple locations and years whenever possible.

Monsanto Company is a member of Excellence Through Stewardship® (ETS). Monsanto products are commercialized in accordance with ETS Product Launch Stewardship Guidance, and in compliance with Monsanto's Policy for Commercialization of Biotechnology-Derived Plant Products in Commodity Crops. This product has been approved for import into key export markets with functioning regulatory systems. Any crop or material produced from this product can only be exported to, or used, processed or sold in countries where all necessary regulatory approvals have been granted. It is a violation of national and international law to move material containing biotech traits across boundaries into nations where import is not permitted. Growers should talk to their grain handler or product purchaser to confirm their buying position for this product. Excellence Through Stewardship® is a registered trademark of Excellence Through Stewardship.

ALWAYS READ AND FOLLOW DIRECTIONS FOR USE ON PESTICIDE LABELING. IT IS A VIOLATION OF FEDERAL AND STATE LAW to use any pesticide product other than in accordance with its labeling. NOT ALL formulations of dicamba, glyphosate or glufosinate are approved for in-crop use with cotton with XtendFlex® Technology. ONLY USE FORMULATIONS THAT ARE SPECIFICALLY LABELED FOR SUCH USES AND APPROVED FOR SUCH USE IN THE STATE OF APPLICATION. Contact the U.S. EPA and your state pesticide regulatory agency with any questions about the approval status of dicamba herbicide products for in-crop use with cotton with XtendFlex® Technology.

Cotton with XtendFlex® Technology contains genes that confer tolerance to glyphosate, glufosinate and dicamba. Glyphosate will kill crops that are not tolerant to glyphosate. Dicamba will kill crops that are not tolerant to dicamba. Glufosinate will kill crops that are not tolerant to glufosinate. Contact your seed brand dealer or refer to the Monsanto Technology Use Guide for recommended weed control programs.

B.t. products may not yet be registered in all states. Check with your seed brand representative for the registration status in your state.

ALWAYS READ AND FOLLOW PESTICIDE LABEL DIRECTIONS. Bollgard II and Design®, Bollgard II®, Bollgard® and Respect the Refuge and Cotton Design® are registered trademarks of Bayer Group. Before opening a bag of seed, be sure to read, understand and accept the stewardship requirements, including applicable refuge requirements for insect resistance management, for the biotechnology traits expressed in the seed as set forth in the Monsanto Technology/Stewardship Agreement that you sign. By opening and using a bag of seed, you are reaffirming your obligation to comply with the most recent stewardship requirements.
